Seagrass

The ultimate playground when it comes to floordesigns. The Seagrass is happy when it is laid as herringbone or even double herringbone but also as brick or basketweave these designs completely come to life. The colours are easy to combine but having just one colour is more than sophisticated.

Concrete

A concrete look like never before. Highly detailed, warm and tactile but with a durability to rival a real concrete floor. Experiment with its four colourways to create sophisticated combinations with a timeless look.

Wood

A wood pattern on a textile floor you think? You will be amazed on how it looks but also how it feels and performs. A nice warm underfoot, no noise of ticking shoes and no wear. The ideal floor in offices, hotelrooms or elderly care locations. It is a mindset change. Get the looks of real wood with the advantages of a textile floor. All installation patterns are possible, use your imagination.
